ARISS - International Space Station project: update 5

St Thomas International Space Station project, 2008

International Space Station project plans are about to blast off with the start of activities to help St Thomas students learn more about space science and the ISS. On the weekend Year 4 students Rianna, Laura and Emily did a great job painting the entry box for the St Thomas' Space Trivia Contest!

How to enter the competition: Each week a question related to the St Thomas International Space Station project will appear in Thomataalk. There are some great prizes to be won including passes to the Brisbane Planetarium. The competition is open to all St Thomas students and only one entry per student is allowed each week. All you have to do to enter is write your answer to the week's space trivia question down on a piece of paper along with your name and class, and place it in the entry box. Entries will close on (do we want to make it Friday or the Tuesday afternoon). The first correct entry to be drawn out of the entry box wins that week's prize. The winner's name will appear in the following week's Thomataalk. The competition entry box will be outside the school office early next week and the first question will appear in next week's Thomataalk. Good luck!

For further information about St Thomas Space Station project contact Morry Clark Ph: 3901 4634 or email morryclark@optusnet.com.au. Messages can also be left at the school office in an envelope marked Attn: international Space Station Project team.
